Giro d'Italia

May 7, 2022 - May 22, 2022

Cycling

North America

For many cycling aficionados, the Giro d'Italia is the toughest test that a pro cyclist can face, with stages that are often harder, longer and colder than any at the Tour de France and Vuelta a España. It's also one of the most enigmatic and unpredictable Grand Tours, many main favorites flying well under the radar until the final week.

Like the Tour and Vuelta, the Giro takes place over 21 stages with just two well-deserved rest days, tackling some of the highest and steepest peaks in the Italian Alps and Dolomites along the way.

In 2021, Egan Bernal became the second Colombian to win the Giro after Nairo Quintana

The Bennetts British Superbike Championship (BSB) continues to assert itself as the greatest domestic bike series in the world, and a producer of some of the sport's hottest properties.

Bennetts BSB is famed for its close, dramatic racing. A control tyre (Pirelli) and tightly managed regulations ensures the grid is evenly matched with battles throughout the field. Riders battle wheel to wheel at speeds of up to 200mph and frequently lose control as they push to the limit. A BSB bike will lap the Brands Hatch Grand Prix circuit in around 86 seconds - that's 6 seconds faster than a British Touring Car.
